Coffee Waves was founded in March 2008 in Corpus Christi, Texas. Our motto, "Sit, Sip, Surf", refers to our guests "sitting" down to relax and socialize, "sipping" on a delicious latte, and "surfing" the internet on our free high-speed wi-fi access. We are the only business offering true Italian Gelato made fresh in the coastal bend region. We also pride ourselves in true artisan-level espresso and specialty coffee. All of our arabica fair-trade coffee falls into the top 5% specialty coffees in the world. Our specialty coffee drinks are made manually by hand, which is a craft few coffee shops still employ in their business model. Our panini sandwiches are made fresh daily and are absolutely delicious!

Creating a quality coffee drink that sets a standard above other fast-food coffee shops takes time and attention to detail. Our baristas know how to do this with TLC and a smile, and we can assure that your time and money will be well spent when you visit Coffee Waves.
